Discharge Summary

Patient: Hans-Jürgen Möller

Date of Birth: 02/17/1950

Admission Date: 07/08/2024

Discharge Date: 07/16/2024

Attending Physician: Dr. Carsten Braun, MD

Mr. Hans-Jürgen Möller, DOB 02/17/1950, was admitted for video-assisted thoracoscopic lobectomy of the right upper lobe. A 2.1 cm pulmonary nodule identified on CT; PET showed uptake consistent with malignancy. Staging: T2 N0 M0.

Primary Diagnosis: Non-small cell lung carcinoma (C34.1) — Tumor staging: T2 N0 M0

Right upper lobectomy performed without complications. Chest drain removed day 3. Histology: well-differentiated adenocarcinoma, margins clear. Discharged July 16, 2024. Thoracic tumor clinic in 6 weeks.

Dr. Carsten Braun, MD

Senior Physician, Thoracic Surgery
