
Discharge Letter

Patient: Dieter Schäfer

Date of Birth: 09/02/1963

Admission Date: 08/05/2024

Discharge Date: 08/12/2024

Attending Physician: Dr. Ute Frisch, MD

Mr. Dieter Schäfer, DOB 09/02/1963, was admitted for initiation of rituximab biologic therapy following inadequate response to methotrexate and leflunomide. Anti-CCP antibodies strongly positive at 340 U/mL.

Primary Diagnosis: Seropositive rheumatoid arthritis (M05.9)

First infusion of rituximab 1000 mg with IV methylprednisolone premedication was well tolerated. Discharged on 08/12/2024. Rheumatology follow-up in 8 weeks.
