

Discharge Summary

Patient: Hannelore Schwarz
Date of Birth: 05/23/1954
Admission Date: 08/04/2025
Discharge Date: 08/13/2025
Attending Physician: Dr. Petra Riedel, MD

Ms. Hannelore Schwarz, DOB 05/23/1954, was admitted on 08/04/2025 for neoadjuvant short-course radiotherapy for rectal carcinoma. Colonoscopy identified a cT2 rectal lesion at 8 cm from the anal margin. MRI: no mesorectal fascia involvement.

Primary Diagnosis: Rectal carcinoma (C20) — Tumor staging: T2 N0 M0

HbA1c	5.7%
CEA	6.2 ng/mL
Hb	12.6 g/dL

Ms. Schwarz has mild type 2 diabetes on metformin 500 mg (HbA1c 5.7%). No cardiac or renal comorbidities. Non-smoker.

5 × 5 Gy short-course radiotherapy delivered over 5 days. Well tolerated — mild grade 1 perianal erythema only. Surgery (low anterior resection) planned 8 weeks post-radiotherapy. Discharged 08/13/2025.

Dr. Petra Riedel, MD
Senior Radiation Oncologist
