Dept. of Gastroenterology

5 Lakeside Way, Portland, OR 97201

Discharge Letter

Patient: Ingrid Neumann

Date of Birth: 08/19/1955

Admission Date: 05/01/2024

Discharge Date: 05/08/2024

Attending Physician: Dr. Petra Lang, MD

Ms. Ingrid Neumann, DOB 08/19/1955, was admitted May 1–8, 2024 to initiate direct-acting antiviral therapy for genotype 1b chronic hepatitis C. Baseline viral load was 2.4 million IU/mL. Liver elastography showed F2 fibrosis.

Primary Diagnosis: Chronic hepatitis C (B18.2)

Sofosbuvir/ledipasvir was initiated. First week was well tolerated with only mild fatigue. Outpatient follow-up with viral load at week 4 requested.

Dr. Petra Lang, MD
